COMPANY INTRODUCTION

We would like to introduce ourselves, as we are one of the leading Water treatment and water features contractors with creative touch along with a huge experience.

The Parent Company of MEITEC is established in Lebanon on 2013.

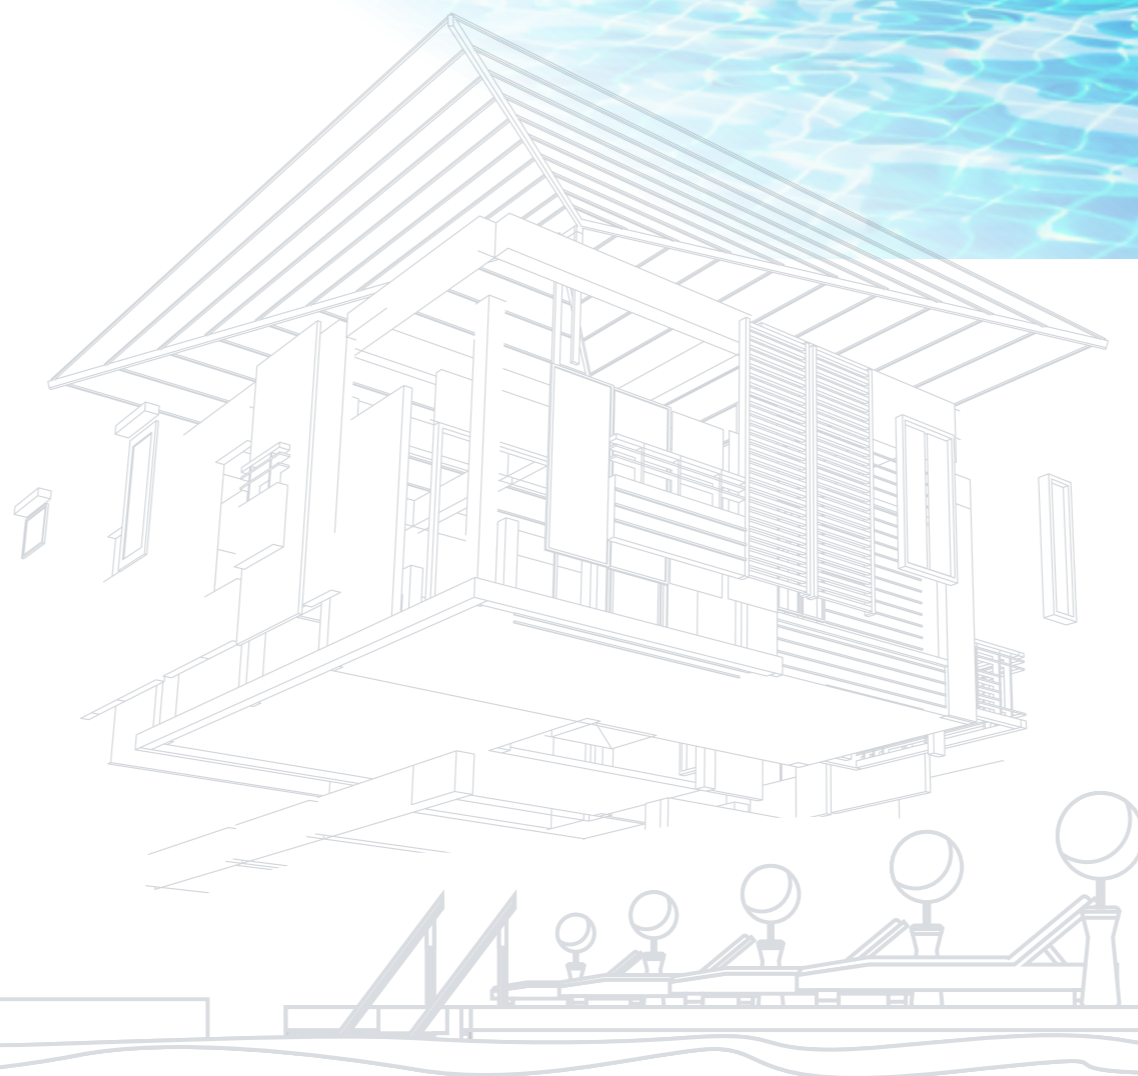

In Sultanate Oman; under the Ministry of Commerce, Industry and investment promotion; MEITEC is operational since 2014.

ABOUT MEITEC

Under Saudi Arabian Foreign Investment regulations, MEITEC established a foreign company branch in the Kingdom of Saudi Arabia on 2024.

Inspired by Water with over 18 years of experience in the Water Treatment, Sewage Treatment, Swimming Pools, SPAs and Fountains in a Reputable Company in this field, we are having an enthusiastic team of experienced Engineers, well trained technical supervisors and technical labors to provide high quality water treatment supported by an after sales services team dedicated for all related technical services.

We view every project as completely unique and work closely with our clients to get a clear and exact brief of what they are looking to achieve.

We've been designing and building the finest, most innovative swimming pools, Fountains, Water Treatment and Sewage Treatment Plants for residential and commercial clients in Lebanon, Sultanate of Oman and Kingdom of Saudi Arabia.

Our key strengths include communication & project management and we take care and great pride in creating beautifully designed Water Features.

OUR VISION AND MISSION

OUR VISION

Our Vision is to be a leader and provide unparalleled quality engineering solutions and services to our clients.

We are on a never-ending quest for perfection. We have never compromised on quality and have successfully achieved a high level of customer appreciation resulting in long-lasting relations.

OUR MISSION

To Deliver and Perform, for our customers, the highest level of quality products and services at fair and market competitive prices.

We endeavor to offer highest quality products and proactive services to our clients to meet their ever-expanding requirements. The background of years of experience coupled with our experts gives us an edge for understanding the customized requirement. Customer satisfaction is our prime concern. The overwhelming response of our clients motivates us to elevate our standard of excellence.

WHAT WE OFFER

We Provide Consultancy and Engineering service for construction and maintenance of all Water and Sewage Treatments types, Pools and Water Features. We offer complete plumbing, electrical and finishing services for your facility with our skilled team at the best price.

ENGINEERING & CONSULTANCY

Right from the concept design to the installation, we offer all the services to our clients with their convenience.

We delight our clients by providing complete one-stop solutions to all their swimming pools and We undertake all Water and Sewage Treatments types, Pools and Water Features Construction and designing project.

CONSTRUCTION

Our experts are cost and time proficient and have years of experience in construction and commissioning.

Our assets are mainly based on our employees' experiences achieved previously in several projects under the supervision of the Consultants: AECOM, DAR, KHATIB & ALAMI, JLL, DAR AL RIYADH, SAUDI ARCHITECTS, SAUDI DIYAR, WSP, ERGA, CONSOLIDATED CONSULTANTS, RASHEED ENGINEERING, ...

WATER FEATURES AND FOUNTAINS

A Water Feature in the garden is always an inviting and it is always a welcome addition. The water trickle is soothing and the presence of water enhances the atmosphere. Dazzling colorful lights and rhythmic dancing water effects are amazing.

The soothing sound of naturally flowing water has always provided the perfect backdrop for relaxation and concentration. We bring you these vital benefits, while our creative design adds beauty and tranquility to any environment.

WATER FOUNTAINS ARE ERECTED FOR MANY DIFFERENT REASONS INCLUDING :

- Meditation and Stress Relief.
- Indoor and Outdoor Décor.
- Sound Mitigation.
- Natural Humidification.

SWIMMING POOLS

MEITEC has successfully executed several prestigious swimming pool projects for commercial and residential complexes, private villas and health clubs.

We associate with the most reputable and innovative manufacturers in the industry of the latest technology in pool products.

Together with our vast construction expertise, we can therefore offer you the most cost-effective swimming pool and spa services of the highest standard in the business.

JACUZZIS

SPA, Whirlpool and Jacuzzi – all means the same i.e., Hydrotherapy Massage in the warm water using specially designed jets through which water is injected along with tiny air bubbles to give tremendous pleasure removing tensions from mind and muscles. You feel relaxed and massaging effect of water freshens you up after tiring daily routines.

STEAM BATH

Create a cozy refuge where both body and soul can reveal in the beneficial pleasures of steam bathing. You can feel the gentle warmth of the steam-laden air working its way into your pores, stimulating blood circulation and relaxing tense muscles. Unwind, wrapped in clouds of soothing steam, and enjoy the best bathing sensation you have ever experienced.

SAUNA

The superb relaxing health-giving properties are now even more appreciated with today's modern hectic lifestyle. Relax & enjoy deep penetrating heat, soothing the joints and tired muscles in the finest quality Sauna.

WATER & SEWAGE TREATMENT PLANT

MEITEC specializes in water treatment solutions and provides the complete range of services including design, build, maintain operation and upgrade water and wastewater treatment facilities.

The company has vast experience and in-depth knowledge of the industry, which enables it to provide best quality water and waste treatment services to clients.

We provide fully integrated and standardized systems to our valued customers, which can be customized as per their requirements and specifications. All the services are available at competitive prices and delivered within the stipulated time frame to save clients' precious time.

MEITEC is now dealing in all types of water purification systems including:
